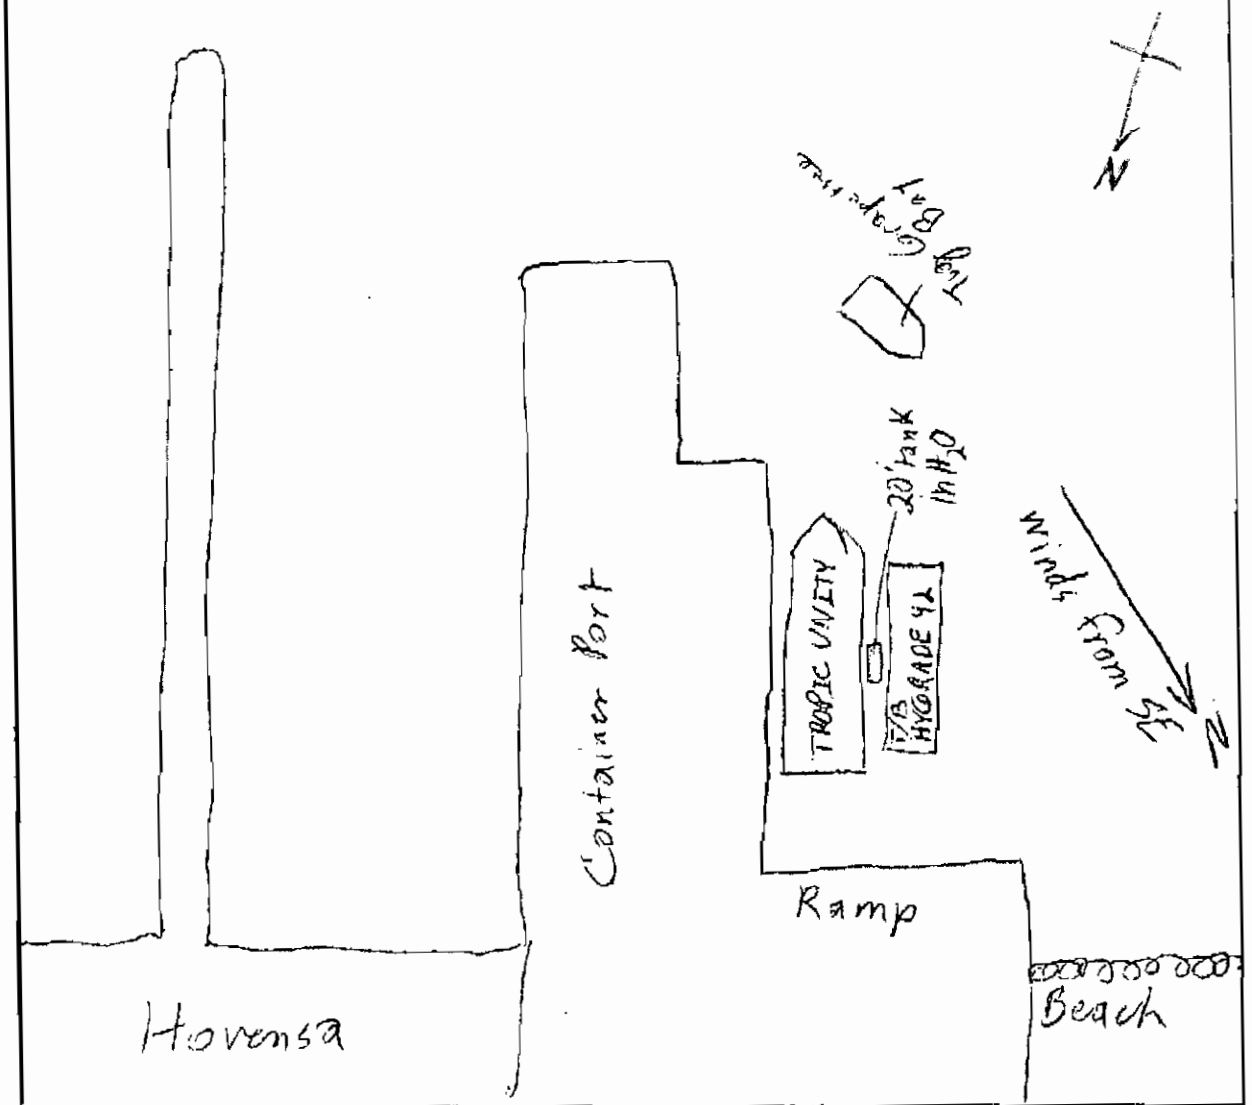
ST. CROIX/CONTAINERPORT/Anahydrous Ammonia	Date: 21 MAR 09 Time: 1205	

3. Map/Sketch (Include sketch, showing the total area of operations, the incident site/area, overflight results, trajectories, impacted shorelines, or other graphics depicting situational and response status)



4. Current Situation: M/V Tropic Unity was offloading containers when one container was being lifted off the boat. The twisting locks did not release the container connected below it. The two containers were lifted in the air when the twisting locks released the bottom container. The container fell onto the Hygrade 42 which was preparing for bunkering operations. The container rested b/n the two vessels. It is floating. The container is a 20' pressurized tank w/ 8,000 lb Anahydrous Ammonia.

Crew evacuated, cannot tell if tank is punctured or valve is sheared, but gas is being released. The tank is being sprayed down continuously.
