Emergency Case Closed
GB007F	3	14SEP08/1040	883761	Flint Hills Resources, Port Arthur	29.898	-93.95888	Quench Oil/unknown amount of residual			None reported	Wastewater control system/water in excess of the system design has required emergency release of contaminated water to the facility holding ponds and drainage flood control outfall.	N/A	Yes	Monitor water flow to keep from overwhelming the waste water discharge controls.	(409) 332-7159	Waste water system secured. Case Closed: No spill occurred
GB008F	3	14SEP08/1200	884247	Texaco Island	29.83256	-93.955994	Diesel/100gal.			Rainbow	Fishing Vessel/sunk but not a hazard to navigation	Yes	Yes	Opend the fund to pay for a clean up of oil from a sunken fishing boat.	TGLO Port Arthur	Vessel moved. Case closed
GB009F	3	14SEP08/1300		Bean's Fleet	29.96472	-93.861613	Oil/unknown			Rainbow	Unknown	No	Yes	Background: 30Sept08 No sheening. Tug boats working on pulling off grounded vessels. Pulling off crewboat grounded. 14Sept08 TGLO investigated the report at 1400 and determined that there was no cleanable product present	MSU Port Arthur	Case closed
GB010F	3	14SEP08/1310		Port of Orange	30.06542	-93.72258	Oil/unknown			Silvery	Potential well head damage	No	Yes	Barges moored. No recoverable product identified.	Orange EOC	No pollution was identified. Case Closed.
GB011F	3	14SEP08/1345	883792	Newpark Environmental	29.95	-93.91353	Crude Oil/unk			Not reported	Barge NESI 10/ Tank barge that had been stranded in low water.	Yes	Yes	Barge is righted, boom deployed and Oil Mop is finishing up a clean up.	(337) 278-3049	Monitor clean up. Case Closed
GB012F	3	14SEP08/1533	883804/ 883841/ 883836	Gulf of Mexico	29.789	-93.68194	Natural Gas/ Unknown			None reported	Pipeline	No	Yes	Source secure. Spill contained. Cleanup has commenced.	(303) 358-2178	Effect repairs when water retreats. Natural gas line. Now an air release. Case Closed.
GB013F	3	14SEP08/1731	883821	Boston Canal, LA	29.898	-92.07139	Crude Oil/ 1 BBL			Brown to Black	Hillcrop Energy Tank	Yes	No	Spill discharge is in Morgan City's AOR and facility has already taking clean up operations. Pollution OPS contacted Morgan City PI and they were taking action on spill.	(337) 277-1943.	Case closed for Port Arthur/Lake Charles
GB014F	3	14SSEP08/ 1748	883822	West Lake, LA	30.244	-93.2725	Unknown			Unknown	Unknown	No	Yes	MSU personnel responded. Could not verify source. Sheen unrecoverable. Spill discharge occurred in MSU Lake Charles Aor and pollution OPS contacted MSU Lake Charles.	(337) 491-5301	Case closed for Port Arthur/Lake Charles
GB015F	3	14Sep08/ 1843	883832	Valero, Port Arthur	29.724	-93.85528	Unknown			20X4 ft	Sample line on transfer system	No	Yes	Valero discovered that their sample line was left open. Secured the line discharge stopped.	(210) 345-1035	Small quantity to evaporate. Case Closed
GB016F	3	14Sep08/1844	883833	Lucite International Inc.	29.994	-94.0125	Stop oil (1500 gal.)			Black oil	Lucite Tanks	Yes	Yes	Discharge potential secured. Contractors are cleaning up all residuals	(409) 749-3482	Clean up complete. Case Closed
GB017F	3	15SEP08/0700	884097 / 884106	Papco (MM301 GIWVW) (29° 42.42N 094° 07.24W) Clam Lake	29.707	-94.12067	65 bbl in tanks or in bermed area.	Minor	New contractor still assessing	No sheen on 23Sept08	301 Tank Farm	Yes	Yes	Background: (Papco):6Oct08: Site visited by TGLO, USCG, and USFWS, 95% oil recovered. Recommend maintenance phase with case closure to follow OOA 8Oct08. 30Oct08 USFWS personnel believe that there is more product than initially reported. SCAT observed numerous pockets of thick oil and heavy staining of vegetation. SCAT also observed high pressure line hissing. PAPCO personnel stated they had secured the line a few days earlier. There will be a 1300 meeting today to discuss what is required of them. NOFI was issued on 21Sept08. Continue to monitor 20Oct08 Bridge to be completed today. Contractors vac truck has tried to get to facility all day. ICW portion of site completed. 1 Oct08 Approx. 10 gal of oil in small pocket along ICW side of facility. Bridge over Clam Lake should be completed today. This will allow vac truck to commence cleanup on facility. 29Sept08 ICW side of facility is 95% complete. (5gallons remain). Spoke with RP and he stated the bridge to the Clam lake side of th facility will be repaired by 1Oct08. Once complete the RP plans to have a VacTruck on site to begin clean up operations on that side. RP also stated they will remove the absorbent boom on the ICW side as well. 25Sept08 OMI arrived on site at 1200 in begin clean up operations. Received report NRC 883953, new line item below. Conducted overflight. Minor sheening which was unrecoverable. RP located tank which was not leaking. USCG remained in contact with LDEC	Beth Irwin (814) 726-2130	Still cleaning up. Will continue to monitor.
GB018F	3	15SEP08/0715	883878 / 883953	Hwy 27 Sabine National Wildlife Refuge in LA	29.924	-92.37917	Unknown			Silvery sheen in two locations	Unknown	No	Yes	Received report NRC 883953, new line item below. Conducted overflight. Minor sheening which was unrecoverable. RP located tank which was not leaking. USCG remained in contact with LDEC	(337) 598-2216	Case closed for Port Arthur/Lake Charles
GB019F	3	15SEP08/1410	883945	Gulf Beach Highway, Cameron LA	29.761	-93.62639	<1 gal			100'x25', silvery	Compressor motor	No	Yes	Small quantity discharge, no clean up conducted prior to dissipation. Spotted by overflight, unrecoverable sheen remained. RP conducted cleanup.	(337) 278-9795	Case closed for Port Arthur/Lake Charles
GB020F	3	15SEP08/1430	883953	Cameron County, LA	29.852	-93.52083	790 Barrels/Crude Oil/Potential			5'x20', rainbow	Crude oil storage tanks at Milagro exploration, LLC	Yes	Yes	RP is looking for a missing tank and responding to a leaking tank at a remote facility. This is tied to the earlier report from the FWS 883878	(985) 851-5055	Continue to monitor the clean up efforts. Assist with overflights, if possible, to locate the missing tank. Case closed. Passed to MSU Lake Charles.
GB021F	3	15SEP08/1446	883963	Lake Hackberry, LA 30° 00.54N 093° 25.22W	30.009	-93.42033	20 BBLs/ Crude			100'x20', rainbow	TPIC well heads	Yes	Yes	Background: 25Sept08 Leak is secured, RP has conducted clean-up. 20Sept08 Well heads are leaking and unsecured, RP has hired contractors and are enroute to secure heads and begin clean up.	(337) 258-9836	Case completed for MSU Port Arthur and Lake Charles
GB022F	3	15SEP08/1509	883970	Taylor Bayou	29.859	-93.95611	Motor Oil & Sump Oil			unknown	Storage Container	Yes	Yes	Oil Mop has been hired, boom will be placed out by this evening.	(409) 718-0060	MSU Port Arthur PI's will respond to monitor clean up efforts. Have area boomed off and will conduct clean up operations tomorrow. Case Closed
GB023F	3	15SEP08/ 1756	884011	Gulf of Mexico 28° 10.45N 092°41.46W	28.174	-92.691	Unknown	Unknown		1.25 mi X. 25 mi	Platform	No	Yes	Background: 30Oct08 Last 3 overflights of facility show no further pollution threat. 28Sept08 Pasadena command to do overflight of all Port Arthur Gulf of Mexico platforms. 24Sept08 Will continue to monitor. No new updates. Toppled platform at EC 265. 22Sept08 NOFI issued. 21Sept08 No updates.	(985) 781-0804	Case Closed
GB024F	3	15SEP08/ 1756	884003	Cameron County, LA	29.761	-93.61011	250 gallons lube oil, 18 lube oil drums, 4 ethylene glycol drums, 6 corrosion inhibitor drums, 11 heating oil			Unknown	Barracuda Facility and Singray Facility	No	N/A	Background: 25Sept08 MSU Lake Charles responded, no product was found. RP conducting clean up. Oil is contained within dike. RP estimating approx. 1 bbl. Flood waters receded containing spill. 90% of drums identifiable. Some drums found on facility but are missing placards and can't identify the remaining 10%. 20Sept08 Have OSRO identify drums. Contractors available when navigation improves. NOFI will be issued.	(337) 583-4642	Case complete for MSU Port Arthur and Lake Charles.
GB025F	3	15SEP08/ 1804	884006	Gulf of Mexico	28.444	-92.90217	Natural Gas/ Unknown			None reported	Pipeline	No	No	Background: 30Oct08 Last 3 overflights of facility show no further pollution threat. 24Sept08 MMS contacted owner to have the line shut in approx. 21Sept08 No NOFI issued today. 20Sept08: Numerous overflights in area indicate that pipeline is not longer leaking/Pipeline is bubbling from Gulf of Mexico, found during overflight.	(337) 257-1214	Natural Gas pipeline in the Gulf of Mexico. Passed to MMS. Case Closed
GB026F	3	15SEP08/ 1929	884026	HWY 366 Port Arthur	29.954	-93.88492	Butadiene / 10lbs			None reported	Vented from relief valve from tank to flare	No	Yes	Product was released and vented into flare at facility.	(409) 548-9965	Case Closed
GB027F	3	15SEP08/ 2001	884029	Bridge City Power Plant	30.035	-93.85083	Asbestos / 1lb			None reported	Insulation	Yes	Yes	Insulation being cleaned and disposed of.	(409) 734-3440	Case Closed

GB028F	3	16SEP08/1105	884090, 884101	EC 281 A platform	28.382	-92.99278	None at this time	None reported	Platform down owned by Stone Energy	No	Yes	Background: 30Oct08 Last 3 overflights of facility show no further pollution threat. 28Sept08 Pasadena command to do overflight of all Port Arthur Gulf of Mexico platforms. 24Sept08 No sheening reported. RP on scene for repairs. Platform is submerged, but not discharging at this time. RP will be marking platform and conducting overflights. 22Sept08 NOFI issued. 21Sept08 No sheening.	Stone Energy (337) 237-0410	Monitor Platform for possibility for discharging and contacting RP about overflights. Two platforms connecting by a catwalk. Case Closed.			
GB029F	3	16SEP08/1103	884091	High Island Petro Chemical	29.583	-94.38333	Crude Oil / 200 gal.	Minor	200 gal.	None reported	Storage tank	Yes	Yes	Background: 26Sept08 SCAT team visited site to determine if cleanup met endpoints. Endpoints met with exception of residual product without secondary containment and sorbent pads not being removed. Everything pumped out of secondary containment. One spot with so contamination. 24Sept08 Several roll off boxes (10) and tractors on site. Berm built to contain discharge. No threat of discharge from containment at this time. Small amount of soil contamination around 2ndary containment. Liquids were removed from 2ndary containment. Minimal threat. No sheening. Built earthen berm to minimize any potential threat. 22Sept08 Oil in some of teh tanks should be emptied by the end of the week. Liquids removed from tank battery. Contaminated soil being scrapped and put in roll off boxes. No on going leaks. RP actively taking action. No holes in tank so threat of leakage is gone. All spilled oil recovered. 21Sept08 NOFI issued.	Robert Romano	Spoke to Carol Mayfield with the Railroad commission. UC passed case to Railroad Commission for them to assess. Requested TCEQ follow up with facility for final disposition. Case Closed.	
GB030F	3	16SEP08/1106	884082	Gulf of Mexico	28.179	-92.68333	Crude Oil	Unknown	Unknown	120 X 85ft.	Platform	No	Yes	Background: 30Oct08 Last 3 overflights of facility show no further pollution threat. 28Sept08 Pasadena command to do overflight of all Port Arthur Gulf of Mexico platforms. 24Sept08 RP taking action to repair and put platform back into production. 22Sept08 Owner taking action to hire dive boat to secure underwater valves. NOFI issued. 19Sept08 EC 328 is reported topped and discharging crude oil. Have buoys to mark area. Dive team on scene on 21Sept08.	Andy Grow Russell Steiner (337) 519-0843	RP reports production platform producing 1300bbl daily. Case Closed	
GB031F	3	16SEP08/1131	884100	Neches River	29.97	-93.85	Diesel/ 500 gal.						Yes	Reagent reported 500 gallons completely discharged.	(908) 284-3800	Tank completely empty. Tank put back on foundation. Case Complete	
GB032F	3	16SEP08/1300	884144	Port Neches	29.977	-93.95	20 LBS Ethylene Oxide				Air release	Air release	No	Yes	Huntsman had air release due to power loss, and is ongoing	(409) 724-4637	Case Completed Due to air release
GB033F	3	16SEP08/1316	884146	Vermillion	29.745	-92.31667	9 BBLs/ Crude				Black	Storage Tank	Yes	N/A	Spill is in MSU Morgan City Aor and have been notified of spill	(337) 988-6050	Completed Case. Passed to Sector Morgan City.
GB034F	3	16SEP08/1330	884151	Orange	30.083	-93.78333	20 lbs Butadiene				Air release	Firestone Facility	No	Yes	Firestone air release out of USJC jurisdiction	(317) 816-3849	Case Completed Due to air release
GB035F	3	17SEP08/1030	884878, 884864	Rainbow Bridge	29.8249	-93.874134	Diesel	Minor			Tank (estimated 20 x 5 ft.)	No	No	Background: 6Oct08: Awaiting contract update/submission/approval from ERR/SEPA. Recommend removing this case. This case is already an active Bravo Branch recovery case. 20Oct08 Salvage plan is under review. Plan required changes. 25Sept08 No RP has been identified. Scheduled for recovery by ESF10. Boom deployed. 24Sept08: Recovery team 3NSF boomed tank for future removal. Unified Command determined that harbor boom containment should be placed around the tank while it awaits salvage. No RP identified. 22Sept08 RP on scene to look at. 20Sept08 Tank sunk in mud. Opened cap on the tank. Put sorbent pad in it. Only a little bit sticking up. Can't determine size of tank. Has diesel stenciled	MSU Port Arthur	Case pending. Transferred from Bravo Branch removal to recovery.	
GB036F	3	18SEP08/1200	885292	PetroGas (old Amerco facility/Mud Lake)	29.7779	-93.9775	Unknown (both oil and chemicals on site)	Minor	1 - 6 bbl	Black oil (5 or 6 pockets of oil left.)	Leaking separator	Yes	Yes	Background: 4Oct08 MSO personnel (FOSCR) observed that all end points have been met and case closed. 30Oct08 Oil cleanup will be completed by the end of the day. Sign off of endpoints having been met pending. Good progress since yesterday. 20Oct08 Pollution team visited site to monitor progress. Significant improvements in cleanup this week. Contractors will finish site tonight or tomorrow morning. Tanks in bermed area had oil removed. 10Oct08 Contractors on site cleaning site. Light sheening in containment areas. Most of oil out of 2 tanks. Will have equipment on site to lean tanks tomorrow. Will meet Friday deadline agreed upon. 30Sept08 Ring levee was repaired and oil is contained. Uncovered a drum leaking that was a minor setback. 40% of oil in bermed area removed. Still oil in two tanks that were found to be leaking. Plans are to removed oil from tanks, concentrate on oil and contaminate foliage removal on east dike and remove all standing liquid from the tank dike area. 29Sept08 Met with RP and conveyed to them that they need to take a more pro-active approach to this clean up. Stated we would be back out on Friday and we need the see completion. Today was the first day that OSRO had enough people on scene to handle this spill. Team spoke with OSRO foreman	PetroGas Hunter Buford (409) 762-0562 (972) 352-9193	Will continue to monitor.	
GB037F	3	18SEP08/1200	884835, 885240	Square Mile Energy	29.8662	-94.03593	Unknown	Minor	200,000 cu ft.	Natural gas	Natural Gas pipeline disconnected	No	Yes	Background: 28Sept08 Small amts. oil (3 patches of emulsified oil with 10ft of white paraffin). No recovery needed due to not being a threat to environment. SCAT recommends case closed. SCAT consisted of TP&W, USFWS, NOAA, TGLO and USCG. 24Sept08 Can now access facility by road. Not a cleanable quantity because it is natural gas. Standing oil product on the ground does not appear to be related to leaking pipeline. Water in containment area down. 21Sept08 NOFI issued. 20Sept08 Pollution team on site. TGLO recommends burning since fowl coming to the area soon. 19Sept08 TRC, Carol Mayfield, on scene. Pipeline is not broken. It was just disconnected. Reconnected and will reactivate line when water recedes. Sheening from their pipeline unlikely coming from their pipeline. 17Sept08 RP contacted PO Melien and informed that wellhead/valves were secure.	Square Mile Energy Larry Wilson (713) 266-3685	TGLO recommends burning since fowl coming to the area soon. Not going to burn for pollution removal. It will be a prescribed burn at a later date within next couple of months.	
GB038F	3	18SEP08/1200		Sabine Port Authority (Sabine Yacht Club)	29.73671	-93.88164	Two 2,000 gal. tanks. One verified empty. The other one is underwater. Only vent showing. Cant confirm amount.	Minor (unknown amt. inside)	No sheen	None (Potential)	Submerged fuel tank	No	Yes	Background: 25Sept08 Recieved documentation tanks where emptied prior to Hurricane Ike on 11Sept08. RP has removed tanks has. 24Sept08 Rober Barrow of Suncoast stated submerged tank was empty and had no oil in it. He will provide documentation confirming this on 25Sept08. Crane possibly on site on 25Sept08. FEMA crane to lift tank but transit delays are hindering salvage. Marina not open to traffic at this time. Will call tomorrow. Will be putting buoy next to tank for safety. Tank on land was removed from site today. Owner planned visit today. No plans to boom tank in water at this time. 23Sept08 Following up with RP to ascertain recovery plan. A salvage plan is being worked on. The goal is to clean the tanks and reuse them. No leakage from either tank. No seepage at this time. One tank in water and one tank at edge of water. Vent 4 feet above water limiting potential for leakage. Both tanks are double walled 2000 gal. tanks. Port Authority is owner of tanks and rents them to Sun Coast Resources who stores oil in them. 21Sept08 NOFI issued. Cleanup suppose to start tomorrow.	Port Authority (Robert Mosely) Sun Coast Resources (409) 719-1974 Robert Barrow (713) 844-9643	Working on plan for salvage and plan to remove tank next week when FEMA crane shows up. Case Closed.	
GB039F	3	18SEP08/1200		Neches River Dayboard 58 30° 03.36N 094° 01.47W (Blackwater)	30.056	-94.0245	None (Oil mistaken for blackwater)			None	Pipeline Leak	No	N/A	ET1 Braver (NSF) witnessed on overflight on going spill by Dayboard 58 in Port Arthur.	MSU Port Arthur	Pollution Team assessed site by boat. No oil found. Sediments gave water blackwater effect. Mistaken as oil. Case complete.	
GB040F	3	18SEP08/1200	885141	Bessie Heights (Lower Neches Wildlife Management Area)	30.02976	-93.929682	8 x 10ft outside containment. 1.5 inches thick inside containment. Crude Oil 1,000 gal.	Minor	Rainbow sheen outside containment very small amount	Rainbow sheen. Containment sucked dry. Residual oils totalling less than 10 gal. lining inside of containment.	Tank battery	Yes	Yes	Background: Marsh considered a sensitive area. 30Sept08 NOAA, TP&W, USCG, USFWS and TGLO signed site off as clean-up end point have been met. 26Sept08 Site visit today. Though some silvery sheen remains there were no pockets of cleanable product witnessed. The pipeline is repaired and no other repair work was required in the area. 25Sept08 NOAA, TGLO, and USCG agreed on sheening for endpoints. Sheen in water in a small area. Will put out sausage boom. Monday is expected date of completion. An area of grass needs to be cut out and some areas within containment need to be addressed. 24Sept08 Some liquid residual on concrete. Still conducting cleanups. Some small unrecoverable sheens were sited. NOAA and Natural resources trustees plan to visit site tomorrow to confirm cleanup endpoints have been met. 23Sept08 Tanks have been emptied and product was removed from secondary containment, few inches of sludge remains. Residual 1.5 inches of oil to be cleaned up over next week or so. Small sheens noted outside containment. Tanks are being dismantled. Residual oil will be cleaned up for approx. the next week. Containment 3.5ft tall. If it rains, leakage will not	ERG Chris Mitchell (281) 217-1176 (337) 396-4069	30Sept08 Case Completed.	
GB041F	2	18SEP08/1500		Blacks Bayou Oil Field (Louisiana marsh) (Johnson's Bayou) 29° 49.17N 093° 37.76W 29° 50.07N 093° 38.22W	29.82	-93.62933	Unknown	Unknown	Unknown	Heavy sheening around both GPS coordinates	Barge pushed up on wellhead. Not sure if barge or wellhead is the one leaking. Pump leaking in area. GB046F	3	19Sep08/1200	884707	Jack's Shrimp Dock (Port Acres)	29.88594	-94.033184	400 gallons	Minor	Unknown	Rainbow (size unknown)	Unknown	No	No	Background: 30Sept08 Neither vessel leaking. Very small amt. of unrecoverable emulsified oil Third unidentified vessel that was not leaking. Plan of salvaging Sandy Gayle after RP ship is repaired. 24Sept08 Late afternoon overflight of facility to assess spill operations. Stakeholders conducted review using ESF10 SCAT inspection form adn agreed site needs response end points and site needs response cleanup endpoints. Recommended natural recovery for pollutio. Stakeholders include NOAA, USCG, PPNWL, and TGLCO. They all agree this site meets cleanup endpoints. There is no recoverable product. Possible sources include 2 tanks and vessel Sandy Gayle. Diesel mixed with muddy sediments was reported to be significant oil contamination. 22Sept08, TCEQ Region 10, Mr. Jay Jones, is working with land owner to ensure soil is remediated. TCEQ will continue to monitor.	Jack Hermerman (409) 982-3286	No recoverable product in water. TCEQ recommended no action and chose to allow natural degradation of site. Case Complete.
GB047F	2	22Sep08 0815	884898	HOPE pump jack (Houston Oil Producing Enterprises)	29.55383	-94.408597	Crude Oil	Minor	Estimated at 90bbl discharged	Unknown	Well Jacket	Yes	Yes	Background: 60Oct08: TGLCO and USCG assessed area recommend maintenance phase. clean up 95% complete. Anticipate case closure of 80Oct08 after next scheduled visit. 40Oct08 Met with RP at 1000 to discuss how much RP had to clean up and get all players on the same page. Met with ERG and Magnum reps to discuss draining of marsh area. Toured facility to do full pollution investigation. 30Oct08 K2 site was found to have approx. 2 bbl in secondary containment. 1 bbl of oil found on road out to this HOPE facility. RP acquiring property maps to look over to determine which derricks area on which property. Will meet RP tomorrow morning to discuss oil spill patterns and which facility owns different oiled areas. 20Oct08 Contractors fighting shifting winds to contain oil in southwestern pond. Numerous rolls of sorbent 10Oct08 TGLCO, USCG, NOAA, and USFWS visited site. Contractor on site started cleanup. Provided RP with pictures from overflight yesterday. Advised RP on booming strategies to effectively collect oil in the marsh. Discussed endpoints with RP. Toured facility to get a better picture of the spill. 30Sept08 Provided list of contractors to RP to hire contractor in the area to facilitate the clean up. Will federalize tomorrow if not significant progress by noon.	William Hill (713) 522-4673	Will check contractor progress 08Oct08
GB048F	3	24-Sep-08	884835	Sabine Pass Tanks (PHI facility)	29.70098	-94.408597	32,000 gal. jet fuel	Medium	Unknown	Black	Tank	No	Yes	Background: 20Oct08 Pollution team visited facility to monitor progress of cleanup. Pond with most problems had sorbents lined around most of pond. Contractors had problems tapping the oil to one side due to shifting winds. Will make them put roll off box on site for hazmat bags. Removed a few barrels of oil over the last day of work.28Sept08 Was an issue after Rita. Abandoned for some time.27Sept08 Pollution team visited site. They could not get close to it due to steel containment and unsat. stairs. Overgrown vegetation hinders this as well. Not known how much is in tank. Has leaked approx. 10-15 gal. on nonviable site of tank. Batteries in containment. Amount in recently found tank on site not known. Tank at 29.42.031 093 56.652 26Sept08 Another tank found leaking something red. 25Sept08 Reported 6 tanks that were missing of Jet Fuel. RP states that their Hurricane SOP is to remove product from tank. Has not been verified. No pollution sighted. Prior to the storm all tanks had been emptied (4 with jet fuel one diesel, and one waste oil). No pollution witnessed on site today.24Sept08 Crews from	PHI	Random tank that has been on site prior to hurricane. Passing case to TCEQ. Case Closed.
GB049F	3	24-Sep-08	885271	Anahuac National Wildlife Refuge			Unknown	Unknown	Unknown	Unknown	Unknown	Unknown	Unknown	Background: 26Sept08 Passed to Fish and Wildlife since it is on federal lands. Stafford does not allow cleanup of federal lands. 25Sept08 Fish and Wildlife has assessed area 3 times. Provided Bravo unit pics, etc. Tanks from 2 possible facilities (HOPE and Magnum Oil Producers) ICS set up there addressing facility rep, Tom Woods, for cleanup inside marsh and marsh impact. More than 14 tanks. Not all tanks from these 2 facilities but Tom will clean them all up in Wildlife area. Conducted assessments today found a total of 15 tanks, documented and mapped by USFWS. 1 reported to have minor pollution, being assessed. USFWS attempted to contact potential RP for removal actions. Lago ranch reported 2 steel tanks on his property at one fiberglass tank. Airboat accessible or swamp only. Jackson ranch across the street has a number of tanks on them as well Off Farm Road 1985. ERG and HOPE in area. Both facilities lost alot of tanks. 15 tanks on site. One tank has RP. No pollution from tanks in refuge area. It is a 3-4 hour airboat ride to site. USFWS to investigate area to see if local facilities lost tanks.	Carter Hooper Tom Woods Craig Hoffpauer (409) 267-3337	Passed to Fish and Wildlife, they will follow up with RP to have tanks removed. Case Closed.
GB050F	3	24-Sep-08		Vessel Charity Spirit (1/4 Mile North of Heringway's on Hwy 73)	29.94255	-93.867809	5-10 gal.	Minor	5 gal.	Black motor oil	Lubricants on board in engine room	Yes	Unknown	Background: 25Sept08 Name received but no confirmation that this is a pollution problem could be found today. 24Sept08 Vessel facing hwy, sitting on bottom on it's starboard side at a 45 degree angle. There is 3ft of water between vessel hull and the bank. Spent motor oil between hull and shore. Contractors (6) on scene. Bobcat, absorbent boom, 1 drum on scene. Piling breaching through hull. Boom catching spilled oil. Satisfactory cleanup.25Sept08 Bandera Env. cleaned up 5 gallons of diesel, case closed.	Unknown	Case Closed
GB051F	3	26-Sep-08	884966	AP Clark #2 (Same as High Island Field)			100bbl	Unknown	Unknown	None	100bbl tank	No	Yes	Background: 30Sept08 Talked with Gill Bujano with RR Commission and he said Arthur Moore will be out there tomorrow or Thurs. to look at the site. 29Sept08 Met with RP and went out to tank identified. Tank was moved from floating during surge, with no release from of product. RP plans on lightning this tank to another. The removal team observed some vegetation staining from the pump jack being knocked of frame. There is no way to estimate how much product was released from well head. RP stated that his facility is under Railroad Commission of Texas. 9/26/2008 Received case from Houston ACR in High Island area. Report appears to be related to HOPE case. Can't get ahead of by phone.	A.P. Gidrey (409) 286-5335 (409) 286 5276	Case deferred to TX Railroad Commission

GB052F	3	26-Sep-08		Chevron Lub. Plant	29.84031	-93.965652	1041bbl	Unknown	Unknown	Oil in tidal waterway. Unknown amt.	Tank 225	Yes	Yes	Background: 30Sept08 USCG, NOAA, and TGL0 signed off that clean-up end points have been met. Very light sheen coming off boom. 27Sept08 Received report from Houston. Found a 300bbl tank had floated away from its footings. The tank was reported at 90bbl of crude and 130bbl of salt water prior to the storm. Post storm has been gauged and still had all crude oil inside. The tank is approx 1/4 mile from the footing. Plan to removed oil and water and return the tank to facility. No reported leaking from the wellhead facility. Marsh between to coke facilities. 26Sept08 Tank floated up during storm. Contents of the tank gone. Had Havatin 10W40 oil inside. Chevron conducted cleanup with Oil Mop, ES&H, and Ampol.	Chevron	Case closed
GB053F	3	28-Sep-08	884481	Air Logistics	29.71386	-93.911249	20,000 gal. Capacity (2 10,000 gal. tanks)	Unknown	15,000 gal.	No sheen	Jet Fuel JP-8 Tanks	Unknown	Unknown	Background: 28Sept08 Called and product is all gone. No sheening. It is believed that the surge lifted tanks removing all fuel and it all left facility. 27Sept08 Spoke with Air Logistics earlier this week. Tanks missing, no oil in their area but high water disallowed for a complete report. Attempted to contact them today.	Roberty Mosely (337) 365-6771	Pollution team will investigate further.
GB054F	3	29-Sep-08	884056	Kilmarnock Oil Tank	30.07561	-93.843562	Unknown	Unknown	Unknown	Unknown	Tank	Unknown	Unknown	Background: 30Sept08 MSU and TGL0 observed a 100bbl tank shifted from storm. The tank was completely intact and not leaking. RP was on scene and plans to lighter tank into another tank to salvage oil. Oil that did get out of containment area due to flooding has minimally stained teh grass. Teh staining will not rub off and should pose no threat to wildlife. TGL0 and USCG state oil that was in containment area is cleaned. Endpoints have been met and case closed. 27Sept08 Can't get ahold of RP. Done overnight and found spill. Received report of tank leaking oil after the hurricane with possible confirmation from an overflight. Unable to make contact with reporting party. Water levels are down, sending team (CG/TGL0) landside to investigate. After Hurricane: Responded to site. Found wellhead that had apparently released. Threatened to go into Cow Bayou. 10 gallons of still product on private property. Killed alot of grass on property	Kimarnock	Case Closed
GB055F	3	30-Sep-08		Labell House	29.92098	-94.09219	Unknown	Unknown	Unknown	Unknown	House oiled.	No	No	Background: 30Oct08 EPA took soil samples and found no reportable quantity of any chemical to justify removal. 30Sept08 No pollution in house. 84Th CST/TCEQ has been there four times and took sludge samples. News crews in area showing interest in site.	Larry Merendino (c) (409) 796-1883 (c) (409) 673-0100	Case Closed
